His name is Naveen. Based in B'lore . Including him in CC. Number +91 99808 22544

Hi Naveen,

ICFOSS would like to have a discussion with you. Connecting you in the mail chain. Maybe have a call with them at a convenient time and when you are here in Kerala, can meet them in person

Regards

It is a very imp initiative. If you remember we proposed something close when we did KSEB project. Question is political will to get the depts to share.

You may also remember the map updation we did as part of training program by Aruna. We may do something like that across the state.

Subject: Proposal - Open Street Maps

Hi Jai,

Got a proposal from a college junior asking us to release the state GIS maps under Open Database License. He's saying it'll speed up the flood analysis work etc. He has put together a proposal in this regard.

I'm not too close to this area. Is this a proposal that govt should consider? Can you take a look ?

Thanks & Regards
