UN MAPPERS

Mapping the World
Supporting Peace and Serving Humanity

Who We Are
UN Mappers

• **UN Mappers** is a thriving and diverse community network ranging from UN personnel in the field (GIS groups, offices, military and police) to academia (high schools and universities), from local communities and NGOs to any remote volunteer in the world.

• The objective is to leverage collaborative mapping to crowdsourced open geospatial data in support of Unite Maps and UN Peacekeeping and Humanitarian activities.

How you can help
How you can help

UNITED NATIONS FOR CENTRAL AFRICAN REPUBLIC - NORTH BANGASSOU: ROADS, WATERWAYS AND VILLAGES

Central African Republic

Unite Maps is a mapping initiative that aims to assist UN peacekeeping missions in their field endeavors, such as peace and security, navigation and logistics, by providing its peacekeepers with topographic maps that will help them in their tactical and operational activities.

In this project we will map topographic data, supporting MINUSCA to ensure peace in Central African Republic. The features to add are:

- Roads
- Waterways
- Residential areas
- Villages

You are required to carefully read all the instructions inside the project before starting to map. Ask any mapping or validation question in the Questions and comments section below.

UN Mappers is a thriving community ranging from UN personnel on the field (GIS groups, UN offices, military and police) to academia (highschools and universities), from local communities and NGOs to any remote volunteer in the world.
