7. Clicking this tab, you choose your language (Spanish) for your translation. ;-)

8. You click your language and start the translation.

You see, I have choosen Español. ...and ... You can start the translation immediately!

Don't forget to push the Save Draft button from time to time. ;-)

OBS: The plugin is a bit tricky: When you press the **SAVE DRAFT** button, the plugin returns to English and **you MUST choose your language again** to **continue** your translation.

Whenever you work on your translation make sure the language tab is the correct one!

Don't forget to push the Save Draft button as a final action of your translation!
